From all indications the man had been murdered some eight or ten hours before, the object no doubt being robbery. Nothing was left in the pockets of the murdered man by which he could be identified. Not far from the body was a bloody mallet, this having been used in crushing the skull. Jake Cobes, living near the scene, was arrested and blood spots about his garments lead officials to believe he may be guilty. He was taken today to the county jail at Williamson. The murdered man, it is believed, may be John Gresham, a buyer of staves and lumber, living near Paintsville.

## GERMAN SYRUP.

We want to impress on our readers that Boche's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease be in the throat or lungs, must have rest at night, and be free from the spasm of dry and hacking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists.

A Severe Cold for Three Months.

The following letter from A. J. Nussbaum, of Batesville, Ind., tells its own story. "I suffered for three months with a severe cold. A druggist prepared me some medicine, and a physician prescribed for me, yet I did not improve. I then tried Foley's Kidney and Tar, and eight doses cured me." Refuse substitutes. Louisa Drug Co.

## New Game Law.

The sportsmen of Kentucky have at last framed a series of laws that are expected to protect the fish and game of the State. By natural conditions Kentucky is especially adapted to the propagation of fish and game, yet in no State has there been more wanton destruction of both. Provision is made against the killing of quails for two years, in which the time the birds may multiply without interference.

Another of the bills creates the office of Fish and Game Warden, with power to appoint a Deputy Warden in every county in the State. A gun license for non-residents is imposed, as well as a small license from hunters of this State, which, with the fines and forfeitures will provide a sum sufficient to pay the salary of the Warden and all the expenses of the office. County Courts also given jurisdiction, which will result in a better enforcement of the bill.

## Mules Bring Good Prices.

The high prices and good demand for mules are making the owners of those ungraceful animals but useful beasts of burden feel in good spirits, and many are taking advantages to let some of their stock go at good prices. Traders and a few up-to-date farmers understand the cause of higher prices for mules, which are enumerated as being the high price of cotton, the Panama canal building and the war in Europe.—Blue Grass Clipper.

## The Farmers Work.

This is a good time of the year for farmers to be getting ready for spring work, so that when the time for work comes no time shall be lost in preparation. Locations for tobacco beds should be selected and brush and wood for burning same be placed at hand. Plow gear should be looked up and missing or broken parts replaced. Plows, harrows, etc. looked after and repaired if necessary. Seed corn should be selected when the corn is gathered in the field, but if not done at that time, during the winter it should be attended to. If fencing is necessary this should be done when the weather will permit.—Exchange.

## C. & O. Will Purchase.

It is reported on authority which seems absolutely reliable that within the next two months the C. & O. road will acquire by purchase the entire system of the Detroit Southern Company. The report comes from a representative of an immense fuel concern, and he is in a position to know. The C. & O. System must have an outlet to the Great Lakes, where the greater part of the coal and coke handled by it is consumed. By going over the Detroit Southern from this point, it greatly lessens the distance now traveled. In addition to this, the C. & O. would come in for the ore carrying trade from the North to the furnaces and mills in this section.—Iron-ton Iron-tonian.

## Why She Had No Spoon.

A good story about J. Pierpont Morgan has just come to light. At the notable dinner that P. A. B. Widener gave to Mr. Morgan last winter, in Philadelphia, it happened, by some unfortunate oversight, that the guest of honor had no oyster fork. In commenting good-naturedly on this accident, Mr. Morgan said: "I am reminded of an anecdote my father used to tell about a certain Mrs. Murphy. Mrs. Murphy, it seems, was dining out and had no salt spoon. The hostess called her butler's attention to this fact.

"William," she said, 'Mrs. Murphy has no saltspoon.' " 'Madam,' William answered gravely, 'the last time Mrs. Murphy dined here we lost a salt spoon.' "—Illustrated Bits.

## A FAMILY OF NINE Protected From Catarrhal Diseases by Peruna.

Mrs. Fred Bartz, St. Louis, Mo. Mrs. Fred Bartz, 7901-3 Ivory Ave., St. Louis, Mo., writes: "As long as we have had Peruna in the house we have not needed a doctor, and there are nine of us in the family. Peruna has rendered us greater service than five doctors and all the patent medicines I used in the six years that I was sick. I was so bad that no one thought I would ever recover." A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh out of its victims. If Peruna is used in the family to promptly cure colds, the family is protected against other ailments. Keep Peruna in the house. Use it for coughs, colds, influenza, and other climatic affections of winter, and there will be no other ailments in the house. Address The Peruna Medicine Co., Columbus, O., for free catarrh book.

## A WOMAN'S COMPLEXION.

It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists.

### Want Judge Paynter To Run.

During the past week some influential friends of Judge Thomas H. Paynter, of the Court of Appeals, have started a quiet movement to induce him to become a candidate for United States Senator to succeed Senator J. C. S. Blackburn, who is himself a candidate. The question has not yet been formally presented to Judge Paynter, as it is well known that it would take a great deal of pressure to induce him to become a candidate. It is his present intention to serve out his present term of eight years on the Appellate bench and then retire permanently from political life, but certain of his friends believe they may be able to show him that he ought to run for the Senate. He served the Ninth district in Congress several terms and has been twice elected to the Appellate bench, never having been defeated for any office which he sought. The race at present is made up of two entries, Senator Blackburn and Congressman D. H. Smith, of the Fourth district.
